

# To know more about when you escape

## When you escape

---

- When you leave the house, please turn off the gas switch.

- Turn off the electric breaker.

- When you run away, wear a helmet or a hat to protect your head.

- Please walk while you escape.  
Do not use a car.

- Please call everyone around.  
Please run away together.

- In case of tsunami, please go to a high place / tsunami evacuation building.
- In case of fire, please go to a large place / safety evacuation Area.
- If you are unable to stay in your house after the disaster, go to a designated evacuation shelter.

## Designated shelter

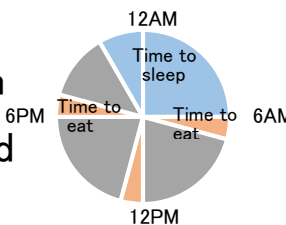

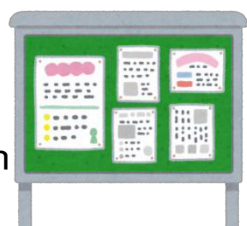

<place you can go when you are unable to stay at your house>

Designated evacuation shelter are operated by people living near the designated evacuation shelter. <Make the rules and do what you need>. If you are healthy enough, please help with translating, transporting, or cleaning up.

Many people live together. There are various rules.

### ○ Rules

<p>① Write your name at the reception.</p> 	<p>② You will be told where to rest. Do not enter the places where others are using.</p> 
<p>Use the water and food that you bring. You can get water and food later. Money is not necessary. Please have them lined up in order. Get only what you need at that time.</p>	
<p>Please adjust the time of living with the people around you, such as the time to wake up, sleep, eat, etc.</p> 	<p>Please segregate and dispose of the garbage in a designated place.</p> 
<p>Please use the designated toilet.</p> 	<p>Check the Information at the evacuation board.</p> 

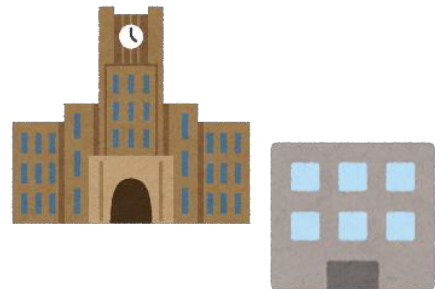

- If you do not understand or need help, consult with someone around you.

- It is difficult to make phone calls after an earthquake. Please contact us by email or SNS.

- Contact your school, company, embassy, or nearby residents to inform them where you are.

They can tell about you if find someone who is looking for you.

- After the earthquake, false rumor information will increase.

Make sure the source is trusted.
