

To learn how to be careful

When at home-When it is shaking

○ Protect your head

- Furniture may collapse when an earthquake strikes.

The glass may crack.

Please go under the desk and protect your head.

- Do not go outside when it is shaking.

When at home-When it is not shaking

○ Put out the fire

- It might cause a fire.

Extinguish fires on gas stoves and stoves.

- When the fire breaks out

When asking for help, please raise your voice to heard.

Please put out the fire as soon as possible.

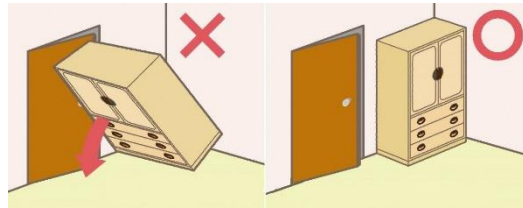

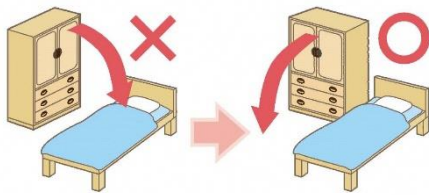

You should escape if the fire spreads to the ceiling since you will not be able to extinguish the fire.

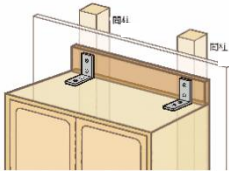

- Please open the door so that you can go outside.

Furniture should be kept for so that it does not fall over the bed or the door.

Fix the furniture so that it does not fall over.

You can hear the detailed story.

Port Fire Department General Affairs Division Phone 052-661-0119
