

Large-Sized Garbage

By Prior Request (Fee required)

Caution Beware of overcharging and other problems caused by waste collectors.

DVD players and FAX machines generally within 15 cm (H) x 40 cm (W) x 25 cm (D)

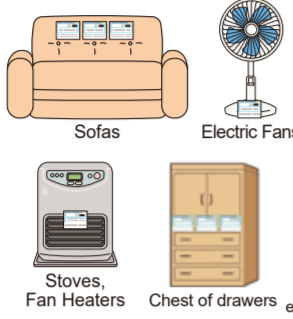

Please take Small Household Electric Appliances to a Recycling Location.

Rechargeable Home Appliances

Accepted at the Environmental Works Office free of charge

Accepted Items

Large items exceeding 30 cm on any dimension

Please remove kerosene, batteries, and rechargeable batteries. These may cause a fire in the collection vehicle or at the treatment facility.

Caution

1 Call at least 7 days before collection (1 week before on the same day of the week).

Apply

Apply by Phone

Large Waste Service Center

0120-758-530

Reception: 9 a.m. - 5 p.m. [excluding Sat., Sun. and New Year's]
*Reception is also available on holidays.

When calling by cell phone or from outside Aichi **052-950-2581** (Telephone charges apply)

*Service only available in Japanese

- Inform us of your address, name, phone number, item, and number of items.
- Confirm sizes and material before applying.
- You will receive the collection date, disposal site, charges, reception number, etc.

2 Pay the Large-Sized Garbage Charges

Buy a payment certificate (sticker) at a supermarket or convenience store.
*Refunds are generally not available once paid.

3 Bring the Large-Sized Garbage

Write your reception number or name on the payment certificate (sticker), affix to the item in an easy-to-see spot, and bring the item.

*The collection time cannot be designated as items are collected throughout the day.
*Items inside gates and residences will not be collected.

Collected Once a Month (Collection occurs even on public holidays.)

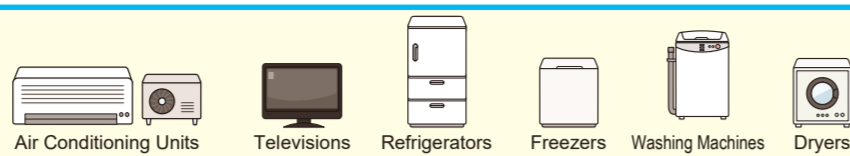

Usually Collected House to House

Please put out items by 8 a.m. on the morning of the collection day.

*The City may repair and sell some reusable furniture secondhand.
*Personal information such as your name and address provided at reception will solely be used for collection of large-sized garbage and reusable furniture.

Home Appliance Recycling Law Appliances

(Air Conditioners, Televisions, Refrigerators and Freezers, Washing Machines and Dryers)
The City does not collect these. Please dispose of these items using one of the methods below.

Request Disposal by an Appliance Retailer

● Request disposal at the store where you buy your new appliance or the store where you bought the old one.
● Many appliance retailers will collect appliances in situations other than the one above. Contact a nearby retailer to find out more.

Take the appliance yourself to a designated commercial disposal location.

After paying the recycling fee at a post office, take the item to a designated commercial disposal location. For details, please ask the Environmental Works Office of the ward in which you reside.

*You can also request an agent approved by Nagoya City (Nagoya City General Waste Cooperative <TEL 961-5383> members) to take items to designated commercial disposal sites.
*Please contact the Home Appliance Recycling Ticket Center (TEL 0120-319-640 <https://www.rkc.aeha.or.jp/index.html>) to confirm if an appliance is covered by the Home Appliance Recycling Law.

Computers

The City does not collect these. Please dispose of these items using one of the methods below.

*Computers that are smaller than 15 cm (H) x 40 cm (W) x 25 cm (D) can be disposed of at a collection bin for small household electric appliances.

- Please inquire about recycling with each manufacturer.
- Please inquire with the PC3R Promotion Association (TEL: 03-5282-7685; <http://www.pc3r.jp/>) about computers that are homebuilt, personally imported, or whose manufacturers have gone bankrupt or withdrawn from the business. *Service only available in Japanese
- Please bring printers, scanners, external drives and other peripheral devices, and servers and work stations judged to be non-recyclable by the manufacturer to the City for collection.

If neither of the above applies, you can dispose of the item as Large-Size Garbage, with the exception of some items (such as products that use fluorocarbons).

Caution Don't dispose of garbage with an unapproved waste collection service!
Licensing for handling industrial waste and secondhand dealership cannot be used for collecting household garbage.

Why Should We Reduce Waste?

Because if we do...

In 1999, Nagoya City abandoned plans for reclaiming the Fujimae-Higata landing zone for migratory birds and declared a state of emergency for waste. After that, the City took measures for systematic waste reduction and achieved an approximate 40% reduction in waste disposal and 90% reduction in landfill use. However, there are still resources contained in the waste, which means that more effort needs to be made to reduce even more waste.

- Prolong the Landfill!** We can use the landfills longer.
- Save Natural Resources!** We can save limited natural resources.
- Prevent Global Warming!** We can reduce the amount of CO₂.

Bringing Garbage by Yourself (Fee required)

Residents and businesses can carry in their own garbage to the incineration plant or other treatment facility.

Procedures Please complete reception at the Environmental Works Office before bringing your items.

As the procedures are scheduled to change starting in January 2027, please check the Nagoya City Official Website for the latest information on taking garbage to the facility yourself.

Sort as Burnable Garbage or Non-Burnable / Large-Sized Garbage

Load the Vehicle

- Please be advised that Burnable Garbage cannot be transported together with Non-Burnable / Large-Sized Garbage.
- Cover the load with a sheet (not necessary for minivans and other vehicles that are already covered).

Apply during reception hours at the Environmental Works Office of the ward where the garbage is produced.

- An advance reservation is not necessary.
- Environmental Works Office staff will check for proper sorting and presence of prohibited items.

Bring the garbage to the treatment facility and the issued approval form on the day of application. (Valid only on the day)

- After weighing, pay the garbage disposal fee (200 yen per 10 kg) by cash.

● Reception hours for the Environmental Works Office vary depending on the ward where the garbage is produced or the transport destination.
● Some items may require bundling and other preprocessing, and some items may not be brought in.
● Small home appliances and rechargeable home appliances will be accepted free of charge, so please bring them separately.
● Please see the Nagoya City Official Website for details.

Nagoya Collection Support

The City of Nagoya supports residents who are unable to set recyclables and garbage at the designated collection point. The City will generally come collect items at the front door of the residence.

(Who is Eligible)

Persons who fall under any of categories 1, 2, or 3 below, who are unable to receive assistance from family members or neighbors, and have difficulty taking out recyclables and garbage by themselves are eligible for this service.

- 1 A person who is at least 65 years old
- 2 A Person Requiring Long-Term Care or a Person Requiring Support
- 3 A physical disability certificate holder
A mental disability certificate holder
A rehabilitation certificate holder

*Eligibility may still be granted if your housemate is very young and cannot take out the garbage.

Please consult with the Environmental Works Office of the ward in which you reside.

Eligibility will be determined during a visit for assessment.

Inquiries (Area Code 052) (Please take care not to dial the wrong number.) *Service only available in Japanese.

Nagoya City Garbage Reduction and Recycling Guide (英語)

Put out your recyclables or garbage by 8 a.m. (7 a.m. in Naka Ward) on the morning of the collection day at the designated location. Collection occurs even on public holidays. *Collection times may vary depending on the traffic and collection route. Collection days are determined by neighborhood. Use this chart by circling the collection day for each sorting category. (New Year's holiday collection dates will be announced on Nagoya City Public Relations, etc.)

Learn about recyclables and garbage here.

Sorting Category	Main Items	Frequency	Collection Days	Designated Bag
