Odaka Minami	N2 Aeon Mall Aratamabashi
	N3 Riverside Seiei (North)
	N4 Riverside Seiei Garden
	N5 Riverside Aratama
Odaka Minami	N6 Apunir Aratama

About Tsunami Hazard Map

- This map shows tsunami disaster warning areas, inundation start times, tsunami evacuation buildings, etc., as designated by Aichi Prefecture in July 2019, based on the "Tsunami Inundation Simulation" emitted by the prefecture in November 2014.
- This hazard map was created assuming a large scale tsunami that only occurs once every 1,000 years (or less frequently) hits the city. We could expect extensive damage in the event of this kind of tsunami.

For more information on tsunami evacuation buildings, including evacuation shelters, click here.

Ward	School District	Name of evacuation building

Legend

- School**
 - A1** Tsunami Evacuation Buildings (Designated Emergency Evacuation Shelters for tsunami)
- No.** These are temporary evacuation sites in case a tsunami warning or major tsunami warning is issued and you have no high ground nearby.
- Seawall** Facility to prevent damages from tsunami, Storm Surge and other disasters.
- Areas subject to evacuate in advance**
 - Areas that will be flooded by 30 cm or more within 30 minutes of the earthquake due to levee subsidence caused by seismic motion
 - Since flood-affected areas increase with time, residents living near the areas mentioned in this map must evacuate as soon as possible in the event of a disaster.
- Ward office** **Branch** **Fire station**

We used the basic urban planning maps used between 2015 and 2016 to create this map. Corrections were made accordingly. We used the urban planning maps of the following places with their consent: Tokai City. (Approval number - Tokai City: #29)
