

Financial Aid for Students with Special-Needs

The City of Nagoya operates a needs-based program to assist students with special-needs attending Nagoya City elementary or junior high schools. The financial aid will be provided according to the income of your household.

Who can receive support?

At least one of the following applies:

1 Students attending special-needs classes (特別支援学級)

2 Students attending regular classes and classes for persons with slight impairments such as: cognitive disabilities, speech impediments, or hearing impairments. (*Only commuting expenses will be covered for students who do not fall under category 3.)

* Students attending classes for persons with special-needs at prefectural schools fall under category 2.

3 Students attending regular classes (including classes for students with cognitive disabilities, speech impediments, or hearing impairments) who have disabilities as listed in paragraph 3, article 22 of the Enforcement Ordinance of the School Education Act (学校教育法施行令第 22 条の 3) (Please refer below for details.)

Contact us if you have differing circumstances.

Documents showing expenses incurred (a contract, receipts, etc.) must be submitted in order to receive aid when purchasing or renting telecommunication equipment.

Levels of Financial Aid

The amount of financial aid you may receive is dependent on your categorized level. This level will be determined based on annual income and the national poverty line (生活保護基準需要額). Your level is determined on a per annual basis.

Level	Criteria	Items Covered
I	Annual income is less than 1.5 times the national poverty line.	① - ⑨
II	Annual income is between 1.5 and 2.5 times the national poverty line.	① - ⑧
III	Annual income is over 2.5 times the national poverty line.	②, ③

The following are approximate examples of what an income for households under 2.5 times the national poverty line (Levels I & II) may be.

Actual amounts may vary depending on the age of household members.

Household Members	Two	Three	Four	Five	Six
Household Income	6,000,000 yen	7,000,000 yen	7,900,000 yen	8,400,000 yen	9,300,000 yen
Gross Income (Fulltime)	(7,900,000 yen)	(9,000,000 yen)	(10,000,000 yen)	(10,500,000 yen)	(11,400,000 yen)

There are two types of financial aid available for households with low income. One is financial aid for persons with special needs (特別支援教育就学奨励費), and the other is "general" financial aid (就学援助). We highly recommend, for those who qualify, to apply for "general" financial aid (就学援助) due to the higher amount of aid available in comparison to the financial aid for persons with special needs program (特別支援教育就学奨励費). However, please make sure to apply for the financial aid for persons with special needs if you need financial aid for item ③ Transportation for Koryugakushu.
