FUTURE OF NAGOYA,

It's lively and rich in nature. You can relaxingly raise your children with peace of mind, where everyone is respected and can play an active role. Everyone has different reasons for living in Nagoya, but I think they all like this charming city.

As a global city, it is a society where diverse people coexist, where we can all support each other and live from the same perspective. We can foster a hopeful and kind future.

Nagoya aims to become such a city.

Care, Growth and Opportunity.

We will do our best to support the young generation so that they can have bright prospects for the future and make their hopes come true.

A KIND SOCIETY THAT FULLY SUPPORTS THE FUTURE OF EACH INDIVIDUAL

In addition to supporting young people who wish to meet and get married, we also provide seamless support from pre-conception to child-rearing, promotion of work-life balance, and enrichment of education. We will create a society where people can have and raise children with peace of mind.

Interview

[Living in Chikusa Ward, 2020-]
Fukao family

I feel that the whole city is supporting our child.

Mr. and Mrs. Fukao returned to Nagoya in 2020 after living in Tokyo. After the birth of their first daughter, they lived in a completely renovated apartment in Chikusa Ward. "In Tokyo, where rents are high, it would be impossible to live the same lifestyle without earning nearly twice as much," the two say. Also, "After giving birth, we were helped by housework support and babysitting services. It is very

helpful because medical expenses are free until they turn 18." They feel that they have a fulfilling child-rearing environment. Their family often visits the Hoshigaoka area, especially Higashiyama Zoo and Botanical Gardens. Additionally, Mai, who supports foreigners at the university, expressed her hopes, saying, "It would be great if administrative services become more multilingual."

Meet each other in this city, bond together, and live in our “own way”

We will create a society where people can have hope for the future, and provide support to fulfill their hopes for dating and marriage.

A city where everyone can create and nurture the future with peace of mind

We will continue to provide consultation and support during the child-rearing period, from before pregnancy to after childbirth.

“Child-centered learning” so that all children can live happily in their own way

They can have dreams for the future and grow healthy.

Nagoya School Innovation Initiatives

A place for children to hang out after school and a place for interaction across grade levels

Full of facilities such as children's centers and twilight schools. Provide a safe place to spend time after school.

Children playing at Minato Children's Center

Career education class “Career Time”

Investing in human resources who will create future innovations

Developing the ability for each child to live their own unique way of life.

We fully support the young generation who will carry the next future!

Young people envision a bright future and use their individuality to play an active role.

Student social problem-solving program

Differences become “power” A city of diversity created together

People with different backgrounds and values come together to respect and recognize each other. Everyone can demonstrate their full potential in a variety of social situations, such as studying and working. Diversity creates a new culture and creates innovation.

Urban development with barrier-free and universal design that is kind to everyone

Promoting barrier-free and universal design in the city. A city that is easy for everyone to use and live in.

[Top] Nagoya Municipal Subway Chikusa Station
[Bottom] Universal design play equipment

Towards a barrier-free society where everyone's consciousness is connected

Towards a society where people can understand each other and give necessary consideration, and where consciousness is barrier-free.

Creating a diverse future by leveraging all differences

We will support everyone so that they can maximize their individuality and abilities and play an active role.

Support to live active lives for elderly people

A city where the elderly can continue to live with peace of mind in a familiar place without becoming isolated.

Familyship declaration

Towards a society where everyone can live as themselves, regardless of gender

Deepen your understanding of diverse ways of life.

Leading the world and opening up the future in the heart of Japan

Nagoya is a global city that aims to make further leaps forward with the hosting of the 2026 Asian Games and Asian Para Games and the opening of the Linear Chuo Shinkansen.

In the future, we aim to make Nagoya an attractive city that will serve as an engine for the growth of Japan as a whole and attract people and businesses from both Japan and abroad.

Developing urban spaces with an eye on the coming future

The Asian Games and Asian Para Games are held, and the Linear Chuo Shinkansen opens. Taking advantage of this once-in-a-lifetime opportunity, we are making a leap forward into becoming a “smart and walkable” global city.

Nagano Campus

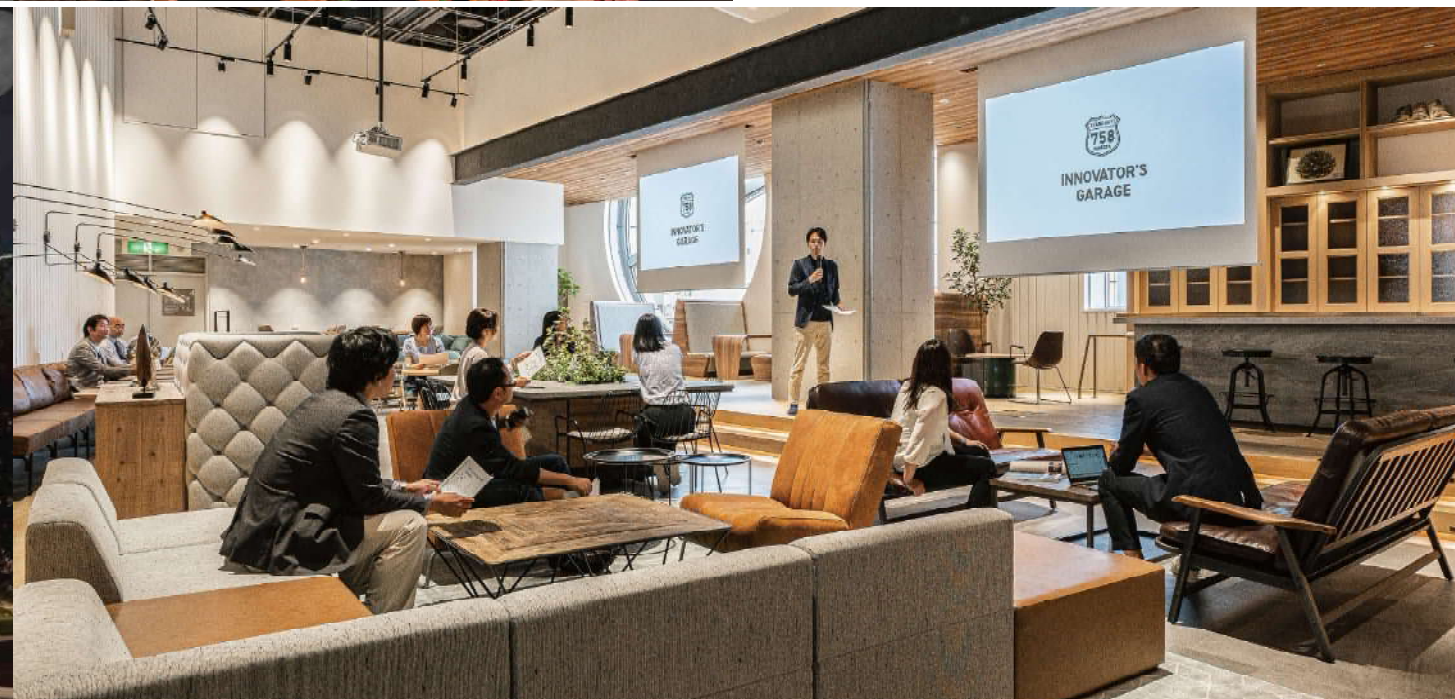

Investing in the environment and human resources that create next-generation innovation

We create a "place" and community where people and companies from Japan and abroad gather, and encounters and interactions lead to new discoveries.

Future image of Nagoya Station (when the Linear Chuo Shinkansen opens)

Nagoya Innovator's Garage

Social withdrawal Metaverse “Yuru Relink”

Towards a cutting-edge digital city that is kind to all residents

Combining technology and energy to accelerate a clean future

Promote the use of new energy and aim to realize a sustainable decarbonized society and economic growth.

Hydrogen station (Minato AQUUS)

Nagoya sightseeing route bus “Me-guru” (fuel cell bus)

Education, health, welfare, industry, disaster prevention, and daily life. You can choose the most suitable service using digital technology.

Nagoya City Master Plan 2028

Based on the “Nagoya City Basic Plan”, which is the guiding principle for city administration, we have set forth the city's vision for the city as “city development based on a long-term perspective” and have comprehensively and systematically summarized the efforts to achieve this goal. Keeping in mind the opening of the Linear Chuo Shinkansen and the period when the national elderly population will reach its peak, we are publishing specific initiatives while envisioning the future of the city around 2040.

Basic Policy

Nagoya is a dynamic global city at the center of a huge exchange area connected by linear trains, where everyone can feel happiness and hope.

Plan Period

Five years from 2024 to 2028

City Vision Aim

1. A city where human rights are respected, and everyone can live a lively life and play an active role
2. A city where you can raise your children with peace of mind and where children and young people can grow up to be prosperous
3. A city where people support each other, are resilient to disasters, and can live safely with peace of mind
4. A city where a comfortable urban environment and nature are in harmony
5. An open city full of charm and vitality that attracts people and businesses from all over the world

We will work on
42 measures
and
506 projects!

Efforts to realize the desired city vision

Key strategies

1. Society as a whole will support the younger generation so that they can have bright prospects for the future and fulfill their wishes for marriage and child-rearing.
2. Society as a whole will support the hopes and dreams of children and young people, leaving no one behind.
3. We will realize kind welfare tailored to each individual and promote the development of a city where everyone can support each other and play an active role.
4. Protect the lives and industries of citizens from disasters and infectious diseases, and ensure a safe and secure lifestyle.
5. We will create a city that grows with a virtuous cycle of environment and economy, where diverse people from around the world gather and interact with each other through its unique charm.

Four driving forces of growth

▶ In particular, fields with strong elements of upfront investment that will lead to the future are set as “drivers of growth”

Nagoya, a diverse city where “diversity” coexists and “diversity” leads to growth.

A society that is inclusive of diversity and leaves no one behind
(coexisting with peace of mind)

×

A highly tolerant city with diverse options
(creating added value)

Administrative management that respects diversity to support the realization of a diverse city

Reforming city government and strengthening its foundation

Main initiatives

Respecting human rights and improving awareness of human rights

Promotion of public-private collaboration

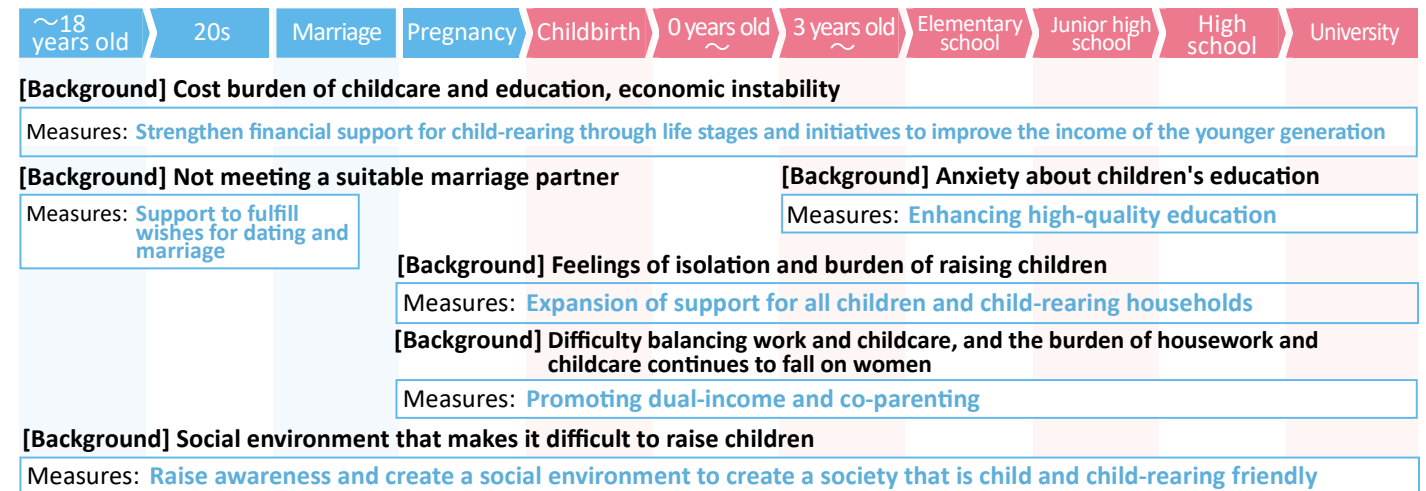

Driving city promotion

Promoting DX (digital transformation)

Main points in the plan (from Key strategies)

Responding to the declining birthrate (initiatives centered on key strategy 1)

We will work seamlessly through each life stage to help young generations have bright prospects for the future and fulfill their wishes for marriage and child-rearing.

Hosting the Asian Games and Asian Para Games and creating a legacy

(from the driving force of growth)

We will lead both games to be held in 2026 to success, and use the games as an opportunity to create a legacy across a variety of fields.

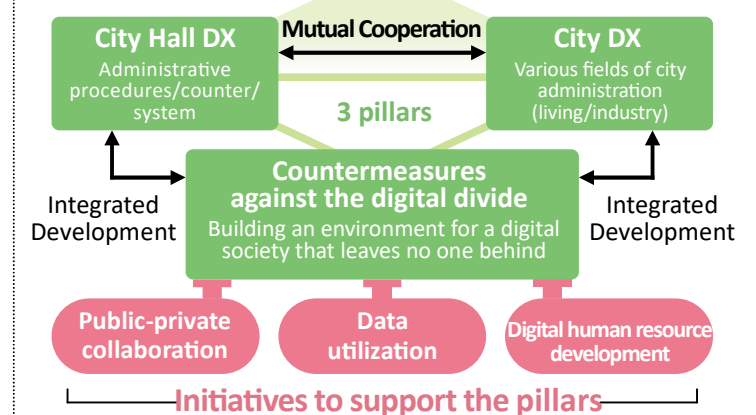

Promoting DX (from the driving force of growth)

By utilizing digital technology, we aim to create new value in life and industry and realize a cutting-edge digital city.

Creating new added value, improving the quality of life of citizens, and revitalizing the local economy

Promoting DX Everyone can realize the benefits of digitalization

Investment for industrial revitalization through new energy

(from the driving force of growth)

In order to realize a decarbonized society by 2050, we will work on “creating new lifestyles and industries using hydrogen” and “expanding the use of renewable energy and supporting business transformation.”

Investing in “people” to develop human resources who will support the future

(from the driving force of growth)

We believe that investment in people, such as education and human resource development, is the source of growth, and we work to “nurturing human resources that will create a sustainable society” and “nurturing human resources that will support industries in a new era.”

42 measures

To realize the desired city vision

Vision 1

A city where human rights are respected, and everyone can live a lively life and play an active role

- 1 We will create a society where human rights are respected and there is no discrimination or prejudice
- 2 We will comprehensively promote gender equality
- 3 We will comprehensively promote barrier-free and universal design urban development
- 4 We will comprehensively support deepening local ties and local activities
- 5 We will support lifelong health in both mind and body
- 6 We will establish a system where appropriate medical care can be received
- 7 We will provide support so that no one who has life issues and needs support is left behind
- 8 We support the elderly so that they can live their lives with peace of mind according to their individual circumstances
- 9 We support people with disabilities to live independently and with peace of mind
- 10 We will promote multicultural coexistence
- 11 We will promote employment support so that everyone can work with motivation
- 12 We will support the creation of purpose in life through lifelong learning

Vision 2

A city where you can raise your children with peace of mind and where children and young people can grow up to be prosperous

- 13 We will create an environment where hopes for dating and marriage will come true, and where everyone can have and raise children with peace of mind
- 14 We will support children and families so that they can grow up healthy
- 15 We will protect children from abuse and bullying and provide support for children who do not attend school
- 16 We will foster children's solid academic ability, rich mind, and healthy body, and develop their ability to play an active role in society
- 17 We will create a city where young generations can learn, grow, and play an active role

Vision 3

A city where people support each other, are resilient to disasters, and can live safely with peace of mind

- 18 We will promote the development of disaster-resistant urban infrastructure
- 19 We will promote disaster prevention and mitigation measures and support the improvement of local disaster prevention capabilities
- 20 We will enhance measures against infectious diseases and ensure a sanitary environment
- 21 We will strive to enhance the firefighting system to protect the lives of citizens
- 22 We will promote the creation of safe and secure communities free of crime and traffic accidents
- 23 We will provide a stable supply of safe, secure, and delicious tap water
- 24 We will stabilize and improve consumer lifestyles and ensure food safety and security

Vision 4

A city where a comfortable urban environment and nature are in harmony

- 25 We will promote the development of a livable city with a good urban infrastructure
- 26 We will realize sustainable public transportation and promote “walkable” urban development
- 27 We will ensure a safe and comfortable road environment for pedestrians and bicycles
- 28 We aim to realize and pass on a safe and comfortable housing life that meets diverse needs
- 29 We will ensure a comfortable living environment with good air and water quality
- 30 We will create an environment where you can interact with familiar nature and agriculture
- 31 We will promote environmentally friendly activities of citizens and businesses
- 32 We will promote urban development towards the realization of a decarbonized society
- 33 We will promote the creation of a recycling-oriented city

Vision 5

An open city full of charm and vitality that attracts people and businesses from all over the world

- 34 We will enhance the city center functions and exchange functions befitting a world-class city
- 35 We will promote internationally open city development
- 36 We will improve the attractiveness of the port and waterside
- 37 We will promote the creation of an attractive urban landscape
- 38 We will strive to improve the attractiveness rooted in history and culture
- 39 We will facilitate interaction by promoting tourism, MICE and disseminating information
- 40 We will promote city development using sports
- 41 We will promote the creation of innovation and promote industrial exchange
- 42 We will develop and support local industry and human resources
